Summary

Full-stack web developer who learns fast, has great communication skills, and is well-organized. Known for writing clean, organized, and concise code, excels at being self-motivated, and works great under pressure. Looks forward to utilizing skills in an environment that encourages further constant learning.

Technical Skills

Languages: HTML, CSS, JavaScript
Applications: Node, jQuery, Express, MySQL, Sequelize, MongoDB, Mongoose, Bootstrap

Projects

Store Front | https://github.com/nartexyu/Store-Front | https://pacific-sierra-18735.herokuapp.com/
- Collaborated with a team of 3 developers to build this CMS (content management system) that allows store owners to create their own customized online store with a user-friendly interface.
- Contribution was writing the back-end code, building the server and database.
- Express, Handlebars, MySQL, Sequelize, Cloudinary API, jQuery, Bootstrap

Emergence | https://github.com/AWSiegfried/Emergence_v1 | https://awsiegfried.github.io/Emergence_v1/
- A music discovery web application designed to help user's find local artists of a specific genre in their city.
- Contribution to this project was to integrate the Youtube API, as well as building the code for the overall functionality of the app.
- JSCharts, Spotify, Youtube, JavaScript, jQuery, Bootstrap, CSS, HTML, local storage

RainShine | https://github.com/DJ620/rain-shine | https://dj620.github.io/rain-shine/
- A weather application that lets users enter a city and get back the current weather, as well as a 5 day forecast. The city entered will be saved to a list on the dashboard, which can be deleted if no longer needed.
- OpenWeather API, JavaScript, jQuery, local storage, Bootstrap, CSS, HTML
